## Mechanism of internal assessment

For the purposes of assessment of students, the institution takes special care in organising internal assessment, to be transparent and robust. Frequency of assessment is adjusted to per month. To make the same transparent the marks and grades are displayed on website and WhatsApp groups.

Further the transparency is enhanced by facilitating revaluation, photocopy of answer and verification sheets to concern students. Also to cure human / systemic errors moderation is provided. Further to ensure transparency for assessment, a rubric is developed which focuses on essential ingredients / key factors and their respective value under total assessment. And the same is communicated to students which ensures their focus on the qualities which are required to be inculcated.

The mode of assessment is primarily based upon developing communication skills, language skills analytical skills strategy building and execution capabilities and of the same again. The teacher uses innovative methods by giving the students Power point presentations and client counselling competition which ensures presentation skills which will be extremely useful for professional development.

The teacher also engages the students in the debates which would develop their argumentative capacities and application and relative merits and demerits of their arguments.

For assessing the learning gaps students are scrutinized at various levels and specific programs and policies are developed to bridge those gaps.
